

SUSTAINABILITY AND EPA: MAKING IT REAL IN REGION 10

Workshop Presented in Seattle, Washington
November 29-30, 2006

John Wise, USEPA Region 9, alumnus
David Schaller, USEPA Region 8
Barbara J. Lither, USEPA Region 10

Day 1 Agenda

- Demystify the term “Sustainability” and why is it important
- The “buzz” about Sustainability
- Seeing and thinking in “Systems”
- Major sustainability frameworks
- Why should EPA embrace Sustainability?

Day 2 Agenda

- What is needed to make EPA a “Champion?”
- Integrating Sustainability into EPA’s core functions - our Toolbox
- Communicating Sustainability - what to say once we understand the concept
- Checklist for personal and professional action
- Next Steps and a “Call to Action”

Workshop Objectives

This intensive two day workshop in the principles and practice of sustainability will provide participants an opportunity to sharpen their sustainability knowledge and skills with a goal of bringing these new competencies back to their day-to-day jobs in the field of environmental protection.
